

image\_id: PFZ083 MOS634-PD ML1610213 20161010 PD-L1  
source image basename: PFZ083 MOS634-PD ML1610213 20161010 PD-L1.svs  
working image shape: 2484 x 3237 (H x W)

annotated-region development metrics:  
false\_positive\_px: 0  
false\_negative\_px: 1891  
precision: 1.0000  
sensitivity: 0.6880  
f1: 0.8151  
training\_log\_loss\_total: 35.3597

annotated\_total\_px: 10826  
annotated\_positive\_px: 6060  
annotated\_negative\_px: 4766

- space interpretation:
- Metrics are computed on annotated training regions only (scribble labels).
  - Ignore/Unlabeled pixels are excluded from evaluation.
  - Outputs (maps/masks/overlay) are in selected working image space.
  - metrics output note: All masks/maps/overlay are exported in working image space (selected SVS level when applicable).

key caveats / limitations:  
- none recorded by upstream metrics
